

# the montessori method – moving at the child’s pace

It is just like a “Lilliputian world”. Everything is the right size and specially designed for you – the tables, the chairs, the shelves around the classroom walls, the lavatories, the basins, the pegs for clothes, the shoe racks, the mirror everything! In fact it is called the “children’s house”.

“A Warm and Caring environment”

At The Ahmedabad Montessori School the child is happy and gets a warm introduction to school. The Montessori method is gentle and kind, moving totally at the child’s pace.

“ It is the aim of my school to create a happy, caring, structured environment where our children are free to learn, to play, to discover and to grow.

Indrani Sinha ”

# The amazing field trips!

According to me, there is no description, no image in any book that is capable of replacing the sight of things and nature around us. Children engaged in outdoor play demonstrate such things as spontaneity, energy, vigor, enthusiasm, curiosity, exploration, active involvement and intrinsic motivation amongst other things --Indrani Sinha
